Whereas,

Most students who live on campus at The Catholic University of America have small or inadequate and limited freezer space.

Whereas,

Many students could benefit from having an ice maker in their dorm for uses such as first aid injury treatment, putting ice in their drinks, utilizing ice to preserve groceries during transport from a store or supermarket.

Whereas,

Students could defray the costs of moving to college by not having to buy freezer packs and ice trays for their own use.

Be it enacted that,

The Student Government Senate acting in their official capacity as representatives of the student body of The Catholic University of America hereby requests that CUA Housing Services install one ice machine in a common area of each student dormitory on campus.
