

Resolution 022

A Resolution to Encourage Notifying On-Campus Residents of Maintenance in Their Dormitories

Sponsored by: Senator Rachel Garfield

Whereas,

Students living on campus at The Catholic University of America may submit maintenance requests to Facilities Maintenance and Operations to fix broken or faulty parts of their dormitory.

Whereas,

Facilities Maintenance and Operations personnel may enter students' rooms or suites in response to maintenance requests in order to complete the tasks required by the maintenance request.

Whereas,

Students currently receive a copy of the work order after they have submitted the maintenance request. The work order currently does not list an expected time a FMO worker will respond to the request.

Whereas,

Some students' rooms or suites are unorganized or messy.

Whereas,

Students are currently not given prior notice of approximately when a FMO worker may come to their dormitory to make a repair.

Whereas,

In many utility or repair industries, although they may arrive outside of that window of time, a repairperson commonly will give tenants an expected range of time they are likely to respond for maintenance.

Be it enacted that,

The Student Government Association Senate, acting in its official capacity as the representative of the undergraduate student body of The Catholic University of America, hereby requests that Facilities Maintenance and Operations give students an expected date or range of time when a FMO employee is likely to respond to a maintenance request if that needed maintenance is expected to occur in a student's suite or room.

Agreed to by a vote of _____ yeas to _____ nays on this date: _____ with _____ abstaining and _____ not present.

Jimmy Harrington
President of the Student Government Association

Weston Kirby
Vice President of the Student Government Association
