

Resolution 010
A Resolution to Allow All Sophomores to Receive Internship Credit
Sponsored by: Senator Schlee
Co-Sponsored by: Senator Besendorfer, Senator Lucardi, Senator Ahearn,
Senator Zentz, and Senator Marsden

Whereas, The Catholic University of America offers courses in which students can enroll and receive credit for engaging in an outside internship with an organization, business, or other entity.

Whereas, there is a set of criteria created by each department that a student must meet in order to be eligible for enrollment in these courses which include but are not limited to a minimum GPA, minimum work hours, required forms, and employer agreements.

Whereas, acceptance into these courses is not always permitted for those students who are of a Sophomore standing.

Whereas, many students take advantage of internship opportunities during their Sophomore year regardless of their inability to receive academic credit for their internship.

Be it enacted that,

The Student Government Association Senate, acting in its official capacity as the representative of the undergraduate student body of The Catholic University of America, hereby requests that all students of Sophomore standing are permitted to enroll in internship for credit courses if they meet all the other stated criteria for the course.

Agreed to by a vote of _____ yeas to _____ nays on this date: _____ with _____ abstaining and _____ not present.

Gerald Sharpe
President of the Student Government Association

Gemma del Carmen
Vice President of the Student Government Association
