

Resolution 039

A Resolution to Increase Security in Flather Hall and Salve Regina Hall

Sponsored by: Senator Kish

Co-Sponsored by: Senator Bert, Senator Djilioni

Whereas,

Flather Hall is an on-campus residence hall home to female freshmen, situated between Opus Hall and Regan Hall. . It is in a central location and near a busy parking lot that experiences high traffic flow on any given day.

Whereas,

For security reasons while within the proper hours students can have visitors, most on-campus buildings can only be accessed with a key card of the building's residents.

Whereas,

The keycard security system is designed so that students and faculty are able to access the buildings they need, while still remaining safe from inappropriate entry.

Whereas,

There is a keycard reader installed in the stairwell of Flather Hall, but no such reader in the elevator to the upper floors, posing a security risk.

Whereas,

Salve Regina Hall is often used late at night by students and teachers of art, requiring either DPS or another student inside to open the door.

Be it enacted that,

The Student Government Association Senate, acting in its official capacity as the representative of the undergraduate student body of The Catholic University of America, hereby requests that:

1. A keycard reader is installed in the elevator of Flather Hall.
2. A keycard reader allowing access for appropriate students is installed at the front door of Salve Regina Hall.

Agreed to by a vote of _____ yeas to _____ nays on this date: _____ with _____ abstaining and _____ not present.

Anthony Crnkovich
President of the Student Government Association

Maevis Fahey
Vice President of the Student Government Association
